How Does Your Garden Grow?

By Green Thumbs

Dahlias are a real hobby for some gardeners, and it's no wonder as there are so many wonderful varieties to choose or collect.

Most kinds like a deep well cultivated soil, about half sand and half loam. The tubers should be planted flat and a stake planted at the same time to avoid damage to the roots later on. The shoot should be fairly close to where the stake is so that it will be in the correct position when it is time to be tied up for support.

A fairly deep hole should be dug, about 8". Plant the tuber and gently firm the soil so that there is a slight indentation to catch the rainfall. If late frosts are likely after the foliage appears be sure to cover till danger of freezing is over, as Dahlias are very susceptible to frost.

The ground should be well cultivated until blooming commences, then ordinary hoeing will do. Dahlias seem to benefit from being in a row or bed on their own, although the annual varieties and smaller tuberous types will do nicely in a flower border with other plants. The larger types of tuberous Dahlias need a lot of nutrition so they should not be planted where trees or shrubs will rob the soil of nutrients.

When the plants are about one foot high, apply a good fertilizer about two or three ounces per plant. Stir into the upper few inches of soil, it will wash down to the root system with rain and watering.

In August a mulch of humus, peat or well rotted manure is beneficial, as it will help conserve the moisture as well as build up a strong root system for winter storage. In the fall as soon as the tops are killed by frost, carefully lift the tubers and let them dry for a few hours, cut off the old foliage eight inches above the crown, store in a cool place, preferably in peat moss.

Later on I'll discuss the subject of debudding Dahlias and various plants, for those who plan on showing some specimens.

Legislature Report

BY RALPH JESPERSEN, M.L.A.

The second session of the 16th Legislature which commenced February 13th prorogued Wednesday, May 7th. This was perhaps the longest session of any of the Legislatures in the province's history, 58 days and 21 night sittings. It was a very interesting and productive session, with the introduction of some 120 Bills and a number of programs that will benefit the people of our province.

Among the last bills given approval was Alberta's Medicare Legislation. An Alberta Health Care Insurance Commission will be established to take care of all the administratrive aspects of the plan. Every person resident in the province and his dependents must be registered with the commission before July 1st "to be effective" the day the plan starts.

PREMIUM COST

The cost will be $60 for a single person and $120 for a family -- there will only be the two rates for the basic plan. The government will apply a subsidy to those in the low income bracket. A simple formula will be used, those who have a $500 or less taxable income will be subsidized 50% of their premium rates. Application for subsidy will have to be made each year.

The health insurance coverage made available to all the people of the province will be for basic physician services; certain oral surgery; refraction of the eyes by an optometrist for the fitting of glasses (no oftener than every two years except for covered persons under 18; who can use the service annually); chiropractic services to a limit of $100; podiatric and osteopath services also to a limit of $100.

This will be my last regular weekly report. I realize in many of the reports I have been very brief and perhaps there are questions or other matters that you desire to discuss. If so, please feel free to contact me, write R.A. Jespersen, Stony Plain, or phone 777-4632.

I appreciate the effort and the splendid cooperation given by The Western Review in carrying my weekly report.

Letters to the Editor

Editor,
The Western Review,

Dear Sir:

I'd like to take this opportunity to thank all those who walked and who sponsored others in the "Miles for Millions" walk held in Drayton Valley recently. There were over double the number who walked last year and monies pledged exceeded last year's amount by $1,300.

It was gratifying to see the whole district come together and work for a common goal. Truly, God is blessing this community of friendly people.

A special thanks to the checkpoint men (Pembina Pipe Line) for their dogged 14 hour efforts, the committee men, and to those who picked up walkers at the various checkpoints and returned them to the arena.

Sincerely,
Fr. Lynch, Chairman

1,186 Canadians Drowned Last Year

There were 1,186 people drowned in Canada last year, according to the latest Red Cross report. Included in this figure are 22 deaths which occurred in the Northwest Territories. Alberta's figure was 43 drownings.

While the overall figure of 1,186 shows a 5.4% decrease on the previous year's total of 1,255 drownings, the Red Cross believes that a high percentage of these deaths occurred through accidents which could have been avoided. Another cause for concern is that the percentage of drownings of persons (mostly young men) in the age group of 13 to 33 years old has increased over the previous year.

In an effort to reduce the annual drowning toll, the Red Cross Water Safety Service is aimed at helping Canadians learn how to avoid the hazards of water and enjoy safe, healthy water activities. Last year, of the 654,565 people enrolled in Red Cross Water Safety programs over 14,000 were active in leadership capacities.

The number of drownings associated with boating, swimming and falling into the water decreased by 7% in 1968. Although accidents of this kind still account for over 50% of the total number of drownings, the Red Cross believes that the decrease is due in part to its Survival Swimming course which was introduced in 1966. This course is designed to teach the minimum skills needed to deal with emergency situations which occur when a person finds himself in trouble in the water.

Danger of Poor Seed Apparent this Spring

Test results on low quality wheat samples collected from municipal seed cleaning plants show that many thousands of acres of Alberta crop land may be planted to low germinating seed this spring.

Sherman Yelland, provincial cereal and oilseed crops specialist, reports that 15 samples of low quality wheat were recently taken from five municipal seed cleaning plants. The wheat had already been cleaned for seed.

Seed Cleaning Plant	Percentage Germination of Samples		
A	51	50	54
B	25	45	5
C	49	53	3
D	43	22	20
E	45	32	43

Mr. Yelland strongly urges farmers to use their over-quota delivery privilege to buy pedigree seed this spring. He feels that in view of the poor condition of so much of the seed this year, anybody who is able to take advantage of obtaining reliable seed without a cash outlay should do so if at all possible. Over-quota delivery, provided by the Canadian Wheat Board, is intended to help farmers to buy pedigree wheat, oats, barley, flax, rye and rapeseed, as well as pedigree and commerical forage crop seed without cash outlay.

Further information on over-quota delivery is available from district agriculturists, seed companies, seed growers and elevator agents.

BURTONSVILLE NEWS

On Sunday, May 4th, Lewis and Doris Homme of Stony Plain accompanied by their daughter Shirley Rebus and son Gerry of Edmonton visited Mr. and Mrs. A. Homme. Zoltan and Norma Petriks and two boys of Edmonton and Dick and Lily Wheadon and children of Whitecourt also visited the girls' parents.

Leonard Ratkie of Spruce Grove and Cecil Homme have finished the grain dryer that they have been working on for some time and now that Cecil has finished his combining they are busy drying the barley and hauling it to the seed cleaning plant at Stony Plain.

Mary Tattersall had her son Roy and family of Spruce Grove visiting her on Sunday. Also her son Edward and family of Keephills for Mother's Day.

Even though we have not met the new neighbors who recently moved onto Mr. Bill Cowley's ranch, we say welcome folks. There are three children who will be going to Keephills School we understand, and we hope their stay in the community will be a pleasant one.

Temperature on Wednesday morning went down to 38 with a nice rain.

Mrs. Barnes Named To Library Board

The Library Board has directed that all patrons are to receive a complimentary card at age seventy.

Mrs. Douglas Barnes has been appointed to fill the vacancy left by Mrs. Zolmer's departure.

Custodian Edith Deby attended the section of the Alberta Library Convention pertaining to small libraries held at the Calgary Inn.

New books for the adult section of our library have begun to arrive. They include: "Except for Me and Thee" by Jessamyn West. This is a sequel to the popular "Friendly Persuasion". "The Valentine Victim" is a novel of suspense. Why was Aileen Weston shot to death in the hall of her father's house? Who stood to benefit from her death? Why did the lovely young stepmother go to the Valentine Party alone? No fair to read the last chapter first. If you admire James Joyce you will want to read "Finnigan's Wake". One of the most interesting books to arrive, in my opinion, is "The Complete Tales of Pushkin". Pushkin's poetry is impossible of translation to English but his prose makes fascinating reading and explains why Russians give Pushkin the title of "Father of Russian Literature". "Green Corn Moon" by George Lanning promises light entertainment.

For those who may be new in town we should, perhaps, repeat. The library is housed in the Town Hall. Please feel free to drop in any Tuesday or Friday between the hours of three to five and seven to nine to get acquainted.

What famous beer label has

For years, we've been providing a beautiful mural, suitable for refrigerating, with every bottle of beer. It's a thing of beauty, all right, but we'll have to be honest about it. The label's just a front. The real masterpiece is inside the bottle. And it's traditional. Beer brewed slowly and naturally in the good old-fashioned way. We don't know much about art, but we know what you like.

MOON LAKE NEWS

A surprise housewarming party was held for Mr. and Mrs. Larry Law on Saturday, May 10th. Many neighbors and friends gathered to wish them the best in their new home. A swivel rocker, foot stool and package of 3 cushions were presented to them by Mrs. Fred Romanchuk on behalf of everyone present. Larry and Maryann thanked everyone for the gift and for coming. Dancing was the entertainment then the ladies served a delicious buffet supper at midnight.

Tracey Lee, baby daughter of Mr. and Mrs. Marvin Drewes was feted to a shower on Sunday afternoon in the Moon Lake Hall. Tracey received many lovely and useful gifts for which Peggy thanked everyone. A delicious lunch was served by the ladies present to conclude the afternoon.

Approximately 35 teenagers gathered on Friday evening May 9th in the hall for a teen-sox-hop. The kids really enjoyed themselves which is nice to hear. Thanks to the chaparones Violet Telford and Diane Tufty.

Recent weekend guests at the home of Mr. and Mrs. Fred Romanchuk were Mr. and Mrs. Palmer and Mr. and Mrs. Victor Pawluk all of Edmonton.

Mrs. Law from Edmonton spent the weekend of May 10th with her daughter and son-in-law Mr. and Mrs. Larry Law and children and was present at their housewarming.

The kids that walked for Miles for Millions from Moon Lake at Drayton Valley were Beverley and Linda Bush, Chester Town and Ralph Kapteyn. All completed the 25 miles except Beverly who completed 5 miles. Very good work kids.

Jeff Hansen celebrated his 5th birthday on May 11th.

Mr. and Mrs. Art Kidner and Roxann are now living on their farm. Art is now employed with Parkland County. Nice to have you back in the country folks.

Chester Town is now a proud owner of a Suzuki motorbike.

Out of town guests over the weekend at the home of Mr. and Mrs. Jay Town and Mr. and Mrs. Ralph Tufty were Mr. and Mrs. Ollie Town and family and Mr. and Mrs. Ron Smith and family from Drumheller. They also attended the Block and Palmer wedding on May 17th.

Extend Thanks

On behalf of the Canadian Cancer Campaign I would like to take this opportunity to thank each one who gave so generously when the canvasser called at your home or place of business.

A special thank you goes to the canvassers who gave so freely of their time and effort to make this year's campaign such a great success. The amount of $1,023.96 was realized.

It is truly rewarding when one can see to what extent every dollar added together can amount to, for the progress of research and supplies needed for early diagnosis and treatment to stamp out this dreaded disease.

Mrs. O. Waddell

When the husband was bawled out by the judge for having deserted his wife, he said, "Judge, if you knew that woman like I do, you wouldn't call me a deserter. You'd say I was a refugee."

Safety in The Sun

Safety in the Sun - to tan, yet not to burn, to enjoy the sun, yet not to be harmed by it.

Sun effects can often be deceptive because of surrounding factors. For workers and funseekers in the sun, doctors and cosmeticians recommend some protective skin care always. How a person reacts to the sun is individual but basic advice about tanning vs burning and the use of suntan products are generally applicably to most people.

A one-page pamphlet "Safety in the Sun" prepared by the Consumer Division (Educational Services) of the Food and Drug Directorate highlights some facts on this subject.

Free copies of "Safety in the Sun" are available from Consumer Division (Educational Services), Food and Drug Directorate, Tunney's Pasture, Ottawa.

WEEKLY VIEWPOINT

A series of brief meditations for the readers of The Western Review prepared by the clergy of the Drayton Valley Ministerial Association.

PENTECOST

BY REV. DONALD SNELL

Pentecost is not history it is current events. It is an unspeakable holy and glorious thing that a man can be filled with the Spirit of God. Leonard Ravenhill in his book "Meat for Men" says "Never had God looked down on more millions in human misery than at this hour." What will it take to ring the emergency bell in the Church of the Living God? Just brains cannot help us out of the jam we are in. God waits to fill ordinary people with extra ordinary power, to turn a baffled faith into a rapturous conquest.

Men are God's methods. He has given His Spirit to men. The church has been looking for better methods, greater organization, secure financial and business planning, advanced avenues of worship - but God is looking for better men. Men that know the joy of salvation, and experience the Spirit filled life, willing to risk their lives in the promotional work of His Kingdom. Are you God's man?

Peter on the day of Pentecost overheard a group of people talking about what seemed to be confusion to them. These men are filled with wine they thought but Peter spoke out and said, "No, this is what the prophet Joel spoke about." Scripture is being fulfilled.

We are told that three thousand souls were added because Peter settled the doubts and the confusion which they had developed in their minds. People are still confused in thr realm of the Spirit. Samuel Chadwick says, "The wind and the fire passed away that day but the transformation remained. The transformed Apostles were by far more wonderful than the portents of the day." A new Power was at work in them They came out from behind bolted doors to shake the world with a new religion called Christianity. Pentecost was the biggest thing that ever happened. It changed carnal thoughts into spiritual vision, selfishness into love, cowardice into courage.

And the grand and glorious thing about it all is that it can be current events, day after day, year after year. Pentecost is God's gift of power for you. And the greatest evidence of the Holy Spirit in ones life is the Spirit itself. Gal. 5 will tell you a list of the fruit the Spirit bears.

May 25th, 1969 the Christian Church will celebrate once again Pentecost Sunday.

Local Association Plans Rag Drive

The Local Association, Guide and Brownie Mothers of Drayton Valley, are organizing their annual rag drive. Instead of a house to house convass this year, those with rags to donate are asked to call 542-3856 or 542-4255 for pick-up, or take the rags to Mrs. Woytovicz, 5236-49 St., or Mrs. Machan, north of St. Anthony's School, east of 43rd St. during the next two weeks.

Women's Institute Holds Meeting

The W.I. met in the suite at the Hotel (home of Mrs. Gordon) with four members present.

It was decided to give a prize to the student with the highest mark in Grade 9 Home Economics Class.

A Queen Elizabeth Grandiflora Rose will be raffled at the Plant and Bake Sale on May 24th at Block's Store.

June 2nd is the Girl's Club Achievement Day. It will be held in the Elementary School auditorium. All W.I. members and mothers of the girls are invited to attend. Roll call was a talk on a favorite flower.

Next meeting will be held on June 16th, at the farm of Crystal Dusterhoff.

List of entries to the Flower Show in August will soon be available to those who are interested.

The daily route that the letter carrier takes is officially called a "walk".

JUST ARRIVED....

more models, more features, and more than ever more-for-your-money

No other line of imports can match Datsun for a better mix of models—from low priced economy cars to high-performance sports cars, a rugged truck to an even tougher 4-wheel drive. There's a Datsun for everyone . . . the trick is knowing which one's for you.

So many people switched to Datsun, we couldn t keep up with the demand. But things are different now. We've got nearly enough cars and trucks to go around even though more people than ever before are deciding on Datsun.

(a) Datsun 1000 from $1845

2 and 4-door deluxe models — road test and specifications on following page.

(b) Datsun 1600 from $2145

New 2-door or deluxe 4-door sedan or wagon — all with the high-performance 96 HP overhead cam engines good for 100 MPH and 30-35 miles per gallon. The sedans have all-independent suspension. The wagon's foldaway back seat makes way for a 55 cu. ft. loading bay. They have "windows up" ventilation, 4-on-the-floor or automatic and safety features like: impact-absorbing body construction, collapsible steering columns, headrests, disc brakes, heavy padding on dash and interior fittings.

(c) Datsun 1600 and 2000 Sports from $3345

The 1600 sports with a 96 HP OHV engine is easy to drive in town and out, smooth, comfortable, and has a high of over 100 MPH.

The 2000 is something else! You get 135 snorting horses from an overhead cam mill and it goes one better with 5-on-the-floor. Both cars have safe disc brakes, collapsible steering columns and all the extras as standard equipment. Even a radio.

(d) Datsun Pickup from $2135

This handy-sized pickup outsells all other imported trucks combined in North America. The spunky, OHV engine can move you along at 70 MPH all day and delivers 30-35 MPG. Datsun proves you don't have to be big to be tough. It can haul a ton and no sweat. Can take a full-size 4-berth camper on back.

(e) Patrol 4-wheel drive from $3573

It's a real rock-climbing, stream-fording machine with a 145 HP 6-cylinder engine to bull its way anywhere. You get 2 or 4-wheel drive in any gear, PTO, and the toughest all-steel body you ever saw. Hardtop or canopy models available.

FIRE SAFETY by A.E. Bridges
Alberta Fire Commissioner

FIRE CRIMES

Part of the reason for high fire losses in Alberta is the wilful lack of information and knowledge of fire regulations or fire by-laws. Fires are in fact caused by fire crimes, some of them wilful and some otherwise. Ignorance of the law is held to be no excuse but on the other hand, greater efforts should be made to get the laws into circulation and if possible, by some means to stimulate inquiry about what is required and what are the penalties for breaches of fire laws.

We quickly become conversant with traffic safety laws due to police control and traffic tickets and lessons can be costly. No doubt, more charges against persons for violation of fire laws would focus public attention to them. Fire safety laws and by-laws cover broadly the areas of heating equipment, fuels, processing, handling and storage of flammable liquids, solids or vapours; building construction to assure safe use and occupancy, fire alarm and fire protection equipment.

When in doubt about fire laws, consult your local fire chief or the Provincial Fire Commissioner's Office.

Cancel Meeting

The Missionary Meeting planned by Calvary Baptist Church for Friday evening, May 23rd, will be cancelled due to uncontrolable curcumstances. The church fellowship had informative and inspirational meetings with the Engstrom sisters from Mexico, and also Rev. Gus Tilman from the Philippines.

Expect Export of Canadian Pork

OTTAWA -- Canadian packing plants, currently importing pork from the United States, may be exporting by late fall and early winter.

The shift will follow an anticipated increase in Canadian hog marketings.

Right now Canadian hog farmers are looking across the border for supplies to fill orders.

During the second and third quarters of this year, Canadian production will likely average about seven per-cent below year-earlier levels, according to the Canada Department of Agriculture's Economics Branch.

And, during that period, Canadian packing plants will likely continue to pay a slight premium for Canadian pork and they'll look across the border to make up the difference between Canadian supply and demand. Canadian prices will be slightly higher because there are brokerage, transportation and handling costs involved in importing pork.

During the late fall and early winter months, marketings are expected to expand in both eastern and western Canada, with Manitoba and Saskatchewan recording the sharpest increases.

Farmers began breeding more pigs late last year and early this year while prices averaged about $34 per hundredweight at Toronto about $6 higher than prices a year earlier.

And, there's a heavy supply of feed grain selling at relatively low prices. Farmers will likely turn grain into cash by feeding hogs.

When Canadian packing plants begin to export pork, Canadian prices will likely fall slightly below American prices -- to make up the brokerage, transportation and handling costs.

The economists say there's no firm indication of price trends in the overall North American market.

IN MEMORIAM

In Loving Memory of William Zander, who passed away on May 24th, 1968.
Days of sadness still come o'er us,
Tears in silence often flow
For memory keeps you ever near us,
Tho' you died one year ago.

Deeply and sadly missed by loving wife Wanda and family.

FROM THE JOKE BOOK

A pig and a chicken were strolling down the road when they spotted a sign on a restaurant: "Ham and Egg Dinner."
"How nice," exclaimed the chicken. "They're advertising our arrival."
"Wait a minute," growled the pig. "Your part in this is just a token contribution. For me it means total involvement.

Massey-Ferguson MF 9 Implement Carrier/Trailer

Massey-Ferguson challenges the time-consuming, frustrating job of loading large implements with the handy MF 9 Implement Carrier/Trailer. It's so sturdy you drive a tractor over it; you do the loading at ground level. Balancing the load is as simple as backing a pickup—a few quick adjustments and you're ready to roll.

Other uses, too. Your MF 9 can be used for hauling many things besides implements. Lumber, irrigation pipe, bales, fencing, and portable hog houses are examples of ways you'll be using the easy-loading MF 9. It's an investment in year around convenience.

Act Permits Sunday Hunting

Sunday hunting of big game will be allowed in parts of Alberta this year as a result of amendments to the Game Act passed at the 1969 Session of the Alberta Legistature.

The Hon. Henry Ruste, Alberta Minister of Lands and Forests, explained that Sunday hunting will only be allowed in northern parts of the "green area" of the Province and not in developed regions, or in areas of intensive recreational use. Mr. Ruste expects the regulations designating areas where Sunday hunting can take place will be announced.

YOUR DENTAL HEALTH

One of a series of articles from the Edson Health Unit.

Number 3.

This article is for expectant mothers and mothers of young children. A child's baby (primary) teeth begin to develop before he is born. Thus the expectant mother, by following her doctor's advice and eating all the foods she should each day, provides the baby with the building materials necessary for strong, healthy teeth.

A baby's first teeth usually come through when he is between 6 and 9 months old. All 20 primary teeth are usually present around 2½ years of age. The young child needs these teeth to chew food properly. Parents must help the child to keep his teeth in good condition.

A child of three or younger cannot brush his own teeth any better than he can give himself a good bath. He must have the help of his mother if the teeth are to be cleaned properly. Teeth should be brushed from age two upwards.

If you don't have fluorides in your drinking water, your child should be taking fluoride supplements daily as prescribed by your dentist or doctor. These fluorides are available without charge at your health unit. A child should take these fluoride supplements from birth to age 12 years for sound teeth. We shall discuss fluorides and their effects in a later article.

Your child's first visit to the dentist should be about 3 years of age. Your dentist will undoubtedly try to make the first visit pleasant and interesting. If defects are discovered in the primary teeth they should be treated promptly and thoroughly.

June 1 to 7 is Red Cross Water Safety Week. If you can't swim, don't use inflated swimming aids. They may let you down.
